

YEstation EXT

Work Smarter with Affirmative's Midrange, Cost-Effective, Feature-Packed Thin Clients

The YEstation EXT (241x Series) is the newest member of the Affirmative thin client family. Its sleek new compact design and higher performance than previous EXT generations make it great for VDI environments. The EXT is available with all major Microsoft Embedded Operating Systems and Linux. The EXT is loaded with USB ports for all your favorite PC peripherals and now comes standard with High Definition Audio Output. These combined features make the new YEstation EXT a perfect solution for all VDI implementations and it is also certified Energy Star compliant resulting in less overall power costs.

241X

CLOUD Computing?

Affirmative YEstation thin clients include VDI hardware compatibility with VMware, Citrix, Microsoft, 2X, Ericom, and Quest.

Why Affirmative thin clients?

A thin client is a display terminal that can support local printers and other PC peripherals, such as scanners and wireless LAN adapters. Thin clients allow the user to work with Windows, web browsers, UNIX, and IBM mainframe applications without moving any files to the local desktop. This eliminates the concern for local backups and unauthorized applications. Affirmative thin client power consumption is only 10% of a typical PC reducing total electrical cost.

Thin clients are a cost effective alternative to the PCs and workstations widely deployed in business operations. They are somewhat less expensive to buy, but extremely less expensive to operate and maintain. Thin clients have no disks drives to crash, no viruses, no productivity-robbing games or movies, and no unauthorized file transfer. Since data is not stored locally, thin clients provide an ultra-secure environment if one is lost or stolen; also all YEstation models can be physically secured with a Kensington lock.

With the extended Affirmative family, thin is in

Optional Wireless Module

Model 2410

-PXE Boot Only

Model 2412 Windows CE

-512MB RAM/256MB Flash
-ICA, RDP, 2X, Quest
-PowerTerm Terminal Emulator
-Affirmative exclusive viewing modes for IBM 5250 and 3270 Users; choose Text, Windows, or GUI at no extra cost
-YESterm II TN5250 emulation w/fat finger buttons (optional)
-Microsoft Office & PDF Viewers
-PPOE, PPTP, L2TP
-Local IE6 Web Browser

Model 2415 Windows CE

-All features of 2732 minus PowerTerm Emulator

Model 2416 Linux

-512GB RAM/1GB Flash
-ICA, RDP, VNC
-PPOE, PPTP
-PowerTerm Terminal Emulator

Model 2417 WES (Windows Embedded Standard)

-1GB RAM/1GB Flash
-PowerTerm Terminal Emulator
-IE7 Web Browser
-RDP, VMware View, Citrix, Quest, Ericom, and 2X Support
-YESterm II TN5250 emulation w/fat finger buttons (optional)

Model 2419 WES 7 (Windows 7 Embedded)

-2GB RAM/4GB Flash
-IE8 Web Browser
-RDP, VMware View, Citrix, Quest, Ericom, and 2X Support
-YESterm II TN5250 emulation w/fat finger buttons optional
