

YESstation MAX III

Work Smarter with Affirmative Enterprise Class, Feature-Packed Thin Clients

The YESstation MAX III (273X Series) is the highest performing member and latest generation of the Affirmative thin client family. These devices were engineered with harsh environment durability in mind and have a proven reliability for such applications. The MAX III uses an industrial grade metal chassis, has no moving parts, is expandable, and provides support for all major PC peripherals. The MAX III, along with the rest of the Affirmative thin client family members, are backed with Affirmative's industry leading 3-year limited warranty.

The YESstation MAX III is designed to easily be introduced and adapted to multi-vendor environments. No matter if you are considering IBM terminal replacements or full-fledged VDI deployments, Affirmative has all aspects covered. Affirmative offers comprehensive management software that makes managing YESstations simple. From deploying new firmware or software updates to remote control, Affirmative makes management easy and more cost effective, yet again reducing the overall total cost of ownership.

The YESstation MAX III integrates well in office environments where attractive styling and silent operation are important. It has an exceptionally small footprint with its vertical orientation or optional VESA mount which frees up valuable desk or bench space. The MAX III's standard colors are black and silver which match Affirmative input devices including specialty keyboards with dual color-coded key caps that enhance user productivity when switching between 5250/3270 legacy applications and Windows/browser applications.

Why Affirmative thin clients?

A thin client is a display terminal that can support local printers and other PC peripherals, such as scanners and wireless LAN adapters. Thin clients allow the user to work with Windows, web browsers, UNIX, and IBM mainframe applications without moving any files to the local desktop. This eliminates the concern for local backups and unauthorized applications. Affirmative thin client power consumption is only 10% of a typical PC reducing total electrical cost.

Thin clients are a cost effective alternative to the PCs and workstations widely deployed in business operations. They are somewhat less expensive to buy, but extremely less expensive to operate and maintain. Thin clients have no disks drives to crash, no viruses, no productivity-robbing games or movies, and no unauthorized file transfer. Since data is not stored locally, thin clients provide an ultra-secure environment if one is lost or stolen; also all YESstation models can be physically secured with a Kensington lock.

273X modular chassis

A complete array of ports and slots makes the platform versatile

YESStation MAXIII Hardware Specifications

Items

Processor

Specifications

VIA Nano 1.2 GHz + VX900

I/O Peripheral & Communication

10/100/1000 Mb Ethernet (RJ45)
Two Serial Ports (COM 1 & COM 2)
One Parallel Printer Port
PS/2 Keyboard Port
Seven USB Ports (Front x2, Rear x3, Internal x2)
One High Definition Audio Output (Rear)
One Microphone Input & One Earphone Output (Front)

Other Support

PXE Enabled on BIOS
Built-in Auto. Power-on
Wake On LAN
Kensington Lock Support (x2)

Optional Module Support

Two Serial Port Module (COM 3 & COM 4)
Internal Wireless LAN Module
Mini PCI-e Slot Riser Card
Smart Card Reader
VESA Mounting Kit

Display

DVI-I + VGA Dual Video/Wide Screen Support

Memory Support

DDR3 1GB (Max 4GB)
Flash Memory: 256MB (Max 4GB)

Environmental Temperature

Operating: 5° C to 35° C (41° F to 95° F)
Storage: -10° C to 60° C (14° F to 140° F)

Relative Humidity

90% Maximum, Non-Condensing

Power

External Power Supply, 100-240 Volts AC, 50-60 Hz, 16V/2.5A

Regulatory Compliance

FCC, CE, UL-Approved, ROHS, GS

Dimensions (WxDxH)

9.8 x 7.0 x 1.9 in

Weight

3 Pounds

Optional VESA Mount

Optional Wireless Module

Model 2730

-PXE Boot Only

Model 2732 Windows CE

-1GB DDR3 RAM/256 Flash
-ICA, RDP, 2X, Quest
-PowerTerm
-Affirmative exclusive viewing modes for IBM 5250 and 3270 Users; choose test, Windows, or GUI at no extra cost
-YESTerm II TN5250 emulation w/fat finger buttons (optional)
-Microsoft Office & PDF Viewers
-PPOE, PPTP, L2TP
-Local IE6 Web Browser

Model 2735 Windows CE

-All features of 2732 minus PowerTerm Emulation

Model 2736 Linux

-1GB DDR3 RAM/1GB Flash
-ICA, RDP, VNC
-PPOE, PPTP, PPP via RS232C
-PowerTerm

Model 2737 WES (Windows Embedded Standard)

-1GB DDR3 RAM/1GB Flash
-PowerTerm
-IE7 Web Browser
-RDP, VMware View, Citrix, Quest, Ericom, and 2X Support
-YESTerm II TN5250 emulation w/fat finger buttons (optional)

Model 2739 WES 7 (Windows 7 Embedded)

-2GB DDR3 RAM/4GB Flash
-IE8 Web Browser
-RDP, VMware View, Citrix, Quest, Ericom, and 2X Support
-YESTerm II TN5250 emulation w/fat finger buttons optional
